## Plantronics DuoSet™ Special Edition

Feels as good as it sounds

DuoSet™

The Plantronics DuoSet™ is a cost-effective headset for flexible, hands-free communication. The headset is comfortable with excellent sound quality and is designed for small call centres and for the many small to medium size organisations or even home-offices, where people would benefit from being able to multi-task for optimum efficiency. It is perfectly suited for those who will use the headset regularly, but not necessarily all day.

The easy to use Quick Disconnect™ feature means you can place calls on hold and still move away from your desk without removing the headset.

It has a noise-cancelling microphone - perfect for those work-places where background noise may interfere with clear communication. And, for those who prefer an over-the-ear wearing style, there is an optional earloop available from Plantronics.

Backed by a two-year warranty, DuoSet delivers unsurpassed durability, value for money and versatility.

H141N/Z

## Plantronics DuoSet™

- Lightweight design
- Noise-cancelling microphone, reducing up to 75% of background noise
- Suitable for up to 4 hours' intensive use, or for periods of intermittent telephone conversation
- Ideal for general small or home office use and small/medium call-centres
- User replaceable spare parts
- Two year warranty
- Earloop accessory available
- DuoSet™ special bulk edition - packages of 12

Description	Part Number
H141N/Z Monaural, Noise-cancelling	39971-12

### Technical data

Transmit Characteristics (typical)	DuoSet™
Headset weight	41g (monaural)
Sensitivity @ 1kHz	-34 ± 3dBV/Pa - Noise-Cancelling
Frequency range	200 to 4000Hz
DC Range	1.5 to 2.2 V
Output Impedance	< 100 ohms
Noise Cancellation	10dB
Typical Test Conditions 1.8V DC	3.3K ohms DC Resis, 3.3K ohms AC Load

Receive Characteristics	DuoSet™
Sensitivity @ 1kHz	19.5 ± 3dBPa/V
Frequency range	200 to 4000Hz
Acoustic Limit	24dBPa
Input Impedance	150 ± 50 ohms
Typical Test Conditions 40mV Drive	150 ohms Source Impedance

Specification subject to change

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
