

find your space

Plantronics Explorer™ 320

High-quality headset at an affordable price.

With up to 10 hours' talk time in a tiny, stylish headset, the Explorer 320 gives you way more than you would expect for your money.

Most importantly, you benefit from the legendary Plantronics sound quality. We carried the first words uttered by man from the moon, and we've taken many giant leaps forward since. Whether you are travelling, or just keeping your hands free, you will hear and be heard with maximum clarity.

You will also appreciate how simple the Explorer 320 is to use. You can adjust call volume, answer or end a call, redial the last number* and turn your headset on or off, using just one button. It fits comfortably on either ear and weighs just 17 grams.

The headset will work up to 10 metres' away from your mobile. The talk time, and standby time (up to a massive 240 hours) are a match for most phones, and easily out-last similarly priced competitors. Now you can afford to get truly mobile, with a high-quality Bluetooth headset from the world leader in Sound Innovation™.

* Only when supported by your handset.

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
