

A COMPLETE RANGE FOR ALL YOUR UNIFIED COMMUNICATION NEEDS

If you prefer to communicate through a corded headset, a recognisable handset or a speaker phone Plantronics can still maximise your UC experience:

Our corded Entera™ USB and SupraPlus® Wideband headsets offer reliability and quality for economical, easy to use solutions.

Our UC telephone .Audio™ 1100M handset offers you familiarity to simplify the transition to Unified Communications. You can always move to a headset at a later date!

Our lightweight, portable MCD100™ speakerphone with 360° microphone enables rooms and offices to become a collaborative work environment – for team work anywhere.

DESIGNED FOR SEAMLESS COMMUNICATION

Plantronics Savi Systems for Unified Communications

THE NEW SAVI™ PORTFOLIO

Exclusively tailored for working professionals

We understand the ways you like to work; so our Savi wireless systems offer multiple benefits to enable you to work in a flexible way – across applications, audio sources, desk-to-desk, and on-the-go with multiple-devices – in designs that offer all-day comfort with choice of wearing styles.

SEAMLESS MIXING

The Savi Office system allows workers to simultaneously listen and communicate on both their UC client and deskphone. Meaning they can open up and work across applications – such as conferencing or consulting with colleagues over UC whilst maintaining a customer call on the deskphone, or sharing recorded media from the PC over the deskphone.

SEAMLESS WORKING

The Savi Office charging cradle allows easy disconnect meaning workers can move to different desks as their day demands. And of course being a wireless headset it also offers full working mobility in the office.

SEAMLESS SWITCHING

With the same design signature as the Savi Office system, the Savi Go comes with a USB Bluetooth® Dongle allowing you to connect and switch between your PC and Bluetooth mobile phone.

SEAMLESS CONVERSATIONS

Wideband audio telephones are now an industry standard so to maximise your investment, you need a wideband headset. The Savi Office and Savi Go headsets come with wideband audio to provide clear, intelligible conversations that businesses need.

SEAMLESS HERITAGE

Savi wireless headsets are manufactured by award winning and reputed headset specialist Plantronics – ensuring their quality and performance will deliver time after time.

So be Savi in the office™.
